Updates to ORR Wastewater FFS ARARs Table final Jan 19 2021 PW signature.pdf

Along with the Administrator's decision, EPA issued ARAR tables to be used in the FFS – see attached. We need to ensure they are using the ARAR tables EPA provided, and if not, resolve any differences.

Importance: High

Hi Cathy,

- 1) No - Martha is not reviewing the EMWMF-EMDF FFS ARARs tables. She has previously reviewed the document back in 2016 (she worked with Jeff and Jon in the comments on the D2 document). No changes were made to the ARARs in the latest D3 revision.
- 2) With most of the changes in Appendix K (I did go through every page of the FFS) I saw no need to engage Martha at this time.
- 3) Philosophically, we want the FFS to include all of the DRAT work and to present the results of the RAD discharge numbers. This has not involved Martha and I see no need to engage her services (at this time) since we are asking for a wholesale rewrite.

Hope this clarifies the muddy waters 😊

Carl

Carl,
What about the ARARS in the FFS. Is Martha reviewing?
Tx,
Cathy

Importance: High

Good morning Cathy,

I hope that today is an enjoyable day for you and that you and Glenn have a nice ride up to Oak Ridge later today. Looks like the weather is working in your favor – at least in the greater Atlanta area.

Please discuss and resolve (if possible) our EMWMF-EMDF FFS comments letter. DOE has requested a 30-day response and that date corresponds to **July 22** (next week) – if we want to try and respond in the allotted 30 days. I have read Connie's and your comments and I agree with your added text. Connie caught a typo (great catch!) and raised questions that are just not a part of our

response to the FFS – at least not right now. So, with no additional comments from Glenn it is ready to issue and will NOT be a surprise since I have already informed the DRAT that EPA wants the FFS to include ALL of the DRAT work.

I'm only finding minor issues with the EMDF ROD (so far) and that is good news – no fights or hang ups.

That's all for now.

Carl
